ES, sir."
"Do you know what that means?"

'No, sir." No. Sir.
"It means that your body is not properly nourished. You are not getting the right food, or else not obtaining full benefit of the food you eat! Are you easily tired?"
"Yes, sir."

"How are you getting along at school?"

"How are you getting along at school?"
"Not very well."
"Now! I am going to send a report to
your parents, so that they may know your
condition, and I want you to do what I tell
you, so at to regain your normal weight."
"All right, sir."
"You can never expect to get far in athletics, or school either, so long as your blood
is thin for lack of proper nourishment and
your nerves starved and exhausted."
"We shall to a little easy on exercise."

"We shall go a little easy on exercise, and I have asked your parents to see that you eat plenty of plain, nourishing food. I have also suggested the use of Dr. Chase's

Nerve Food, so as to enrich the blood and tone up your nervous system."

"Is that a medicine?"

"Yes, I suppose you might call it that, but it is entirely different to most medicines, because it builds up tissue instead of tearing it down. It is what is called a restorative. It sharpens the appetite, improves digestion and helps you to obtain full benefit of the food you cat. We are not much on medicines around here, but Chase's Nerve Food has helped so many under-weight boys whom I know that I never lose an opportunity to recommend it.

"I hope it helps me, for I would like to be able to do 'stunts' like the other fellows, and I don't seem to have the strength now."

"You are ready to do wour part then?

aged 2 years and 3 months.

God needed one more angel child
To join His cherub band.
And so He bent with loving smile
And clasped our little Ross's band;
Few know how sad the parting.
Or what the farewell cost.
But Cod and his loved angels
Have galined what when the control of the control o
